The roof redefined. Maxima's unique SkyView glass-paneled roof spans the roofline front to back. More light, more sky – a good thing.

Real brushed aluminum trim reflects Maxima's forward-looking style.
 Maxima's on-board Information Center gives you instant reports about things like driving time, average speed, and the all-important distance to empty.

Maxima's Xtronic CVT (Continuously Variable Transmission) is virtual "gearless" transmission, for optimal power and efficiency at any speed.
